

# Help The Kiddlies® Practise the **Three** Times Table

- 1 William likes to play marbles with Saffi and Tom. They take the marbles out of a bag. The **three** children have **five** marbles each. How many marbles were in the bag?
  - 2 Saffi, William and a friend went to the fair and shared a box of popcorn. Each of the **three** children took a handful of popcorn. They found they had **nine** pieces each and quickly ate them. How many pieces of popcorn were eaten?
  - 3 Saffi wanted to give her mummy a nice birthday present. Each day for **four** days she picked **three** different flowers and gave them to her mummy who put them in a vase. How many flowers were there in the vase?
  - 4 William had a new bookshelf in his bedroom. There were **three** shelves. He put **eight** books on each shelf. How many books did William have?
  - 5 Doggly the Dog was playing in the garden when a small flock of birds landed on a tree. He woofed at the birds who were sat on **three** branches with **three** birds on each branch. As Doggly woofed the birds flew away. How many birds were there?
  - 6 William likes fish fingers so much that for **seven** days he ate **three** for his lunch. How many fish fingers had he eaten by the end of the week?
  - 7 Saffi was playing with her **three** dollies. She found that she had **ten** pairs of shoes for each doll. How many pairs of shoes did she have?
  - 8 Saffi and William went to the beach and began to build sandcastles. After a short while they had a rest and admired their sandcastles. The **two** children had built **three** sandcastles each. How many sandcastles were there?
- Extra point** - Oh dear! Doggly has knocked **four** of the sandcastles down. How many does that leave?
